Experience

Jan. 2022 – Present

Frontend developer – Freelance (remote)

Through my experience creating engaging and interactive websites for small businesses, I have successfully honed my skills and contributed to the growth of these enterprises by providing them with user-centric and responsive digital solutions.

Jun. 2017 – Jun.2023

Private Hire Driver

Operating as a chauffeur in and around London delivering exceptional service for my clients. With an attention to detail calm and always a positive attitude.

Jan. 2015 – Jun.2017

Waiter – Chez Brice (Wandsworth, London)

While working as a waiter in a Michelin star restaurant, I've developed an attention to detail and a can-do attitude while staying always positive in a stressful environment.

Sep. 2012– Jan.2015

Chef – Brasserie Blank (Covent Garden, London)

Working as a chef give me the opportunity to work in a stressful environment doing one of my childhood passions of cooking. While I've enjoyed kitchen, I realised that is not wat I want to do in the future.

Education

Jan.2022 – Present

Self-taught Software Developer (remote)

As an ambitious and adaptive frontend software developer, I am passionate about exploring innovative ways to write code and enhancing my skillset. With experience in HTML, CSS, SCSS, JavaScript, WordPress, ReactJS, Git, and GitHub, I have developed efficient, maintainable, and scalable web applications while staying up to date with industry trends. Always eager to learn and evolve in the dynamic world of frontend development, I am dedicated to creating exceptional digital experiences that empower users and drive business growth. Joining a team of experienced developers, I look forward to contributing my unique blend of passion, adaptability, and commitment to excellence, while also expanding my skills and knowledge in the field. In summary, I am a versatile frontend developer driven by the desire to grow professionally and committed to delivering innovative, user-centric web applications.
